  Elementry Proficiency

Work Experience

Industrial training in web development – 01/06/22 to 20/07/22

Exato Software Pvt. Ltd. ,Gurgaon

During my 2-month internship at **Exato Software**, I gained hands-on experience in web development using **ASP.NET**. I was able to work on a project(Expense Tracker) and improve my skills in creating dynamic web applications. My responsibilities included writing clean and efficient code, testing and debugging, and collaborating with the development team on project requirements. I also had the opportunity to attend daily stand-up meetings with other interns , where I learned about the Agile software development process and how to prioritize tasks effectively.

Projects

- Expense Tracker – A website to help you handle your house budget using .Net
- Credit-card fraud detection using R programming
- License plate recognition system using c++ in MATLAB
- Several games like TicTacToe,Chess using java and python

Key-Skills

- Java
- C , C++
- Python
- Mysql
- R programming
- Android Development (using Java)
